Soake Pools

Soake Pools has just launched an entirely new product: a standing Garden Tub. Unlike any product on the plunge pool market, Soake Pools' new 5-foot-by-7-foot Garden Tub is designed to be installed outdoors, to create a natural, secret garden allure, or indoors, for a highly detailed, one-of-a-kind standing tub. A further assent from the traditional designs of a plunge pool, the Garden Tub is entirely untiled on the exterior, where

ornate three-dimensional floral motifs adorn the body. The oversized tub allows one, or two, to bathe or just relax while nestled in your own secret garden space and commune with nature!
